

## Diploma in Cyber Law/101 - Basis & Regulator Framework of Cyber World/Humanities

<b>Item Text</b>	<b>Option Text 1</b>	<b>Option Text 2</b>	<b>Option Text 3</b>	<b>Option Text 4</b>
The files which serves as audit trails and history of organization are known as?	Transaction files	Master file	work files	entry files
What does a combination of representations for data in files and of operations for accessing the data known as?	computer hardware	Monitor	computer system	File Structure
Which is the process of ingesting, storing, organizing and maintaining the data created and collected by an organization?	Data creation	Data Storage	Data management	Data distribution
The data management process includes a combination of different functions that collectively aim to make sure that the data in corporate systems is NOT	Accurate	Available	Inaccessible	Accessible
A lack of proper data management can saddle organizations with	Incompatible data silos	Accessibility of data	Accuracy of data	Availability of data
What is designed and deployed with database systems and other types of repositories for an organisation's data?	Data Warehouse	Data Governance	Datal Model	Data Architecture
What does the data programmes create data definitions and usage policies to ensure that data is consistent across systems?	Input	Governance	Storage	Output
Relational database management system supports ACID which stands for	atomicity, consistency, isolation and durability	access, completeness, input and data	acceptance, courage, intelligence and durability	Account, character and instant duty

Which of the following is NOT a benefit of Data Management?	improving operational effectiveness	enabling better decision making	limit ability to run business	spot market trends
Data is transferred from one point to another by means of	non operating signals	electrical signals	keyboard	mouse
Select the INCORRECT property of a Protocol	Negotiation of various connection characteristics	How to destabilise the connection	How to detect unexpected loss of the connection, and what to do next	How to start and end a message
What is the full form of TCP/ IP?	Transaction connection Protocol/ Internet Protocol	Transmission Control Protocol/ Invisible Protocol	Transmission Calling Protocol/ Intrenet Protocol	Transmission Control Protocol/ Internet Protocol
Select the Protocol which is specifically used for File Transfer	ARP	DNS	FTP	HTTP
what is the set of communications protocols used for the Internet and other similar networks?	TCP/IP	NTP	UDP	RTP
Which one of the following is NOT a key element of a Protocol?	Syntax	Semantics	Status	Timing
For which purpose the net domain is used for?.	educational institution	Internet infrastructure and service providers	International organizations	None of the Above
Which out of the following is an example of Web browser?	Yahoo	Google	Mozilla Firefox	Gmail
Who invented the world wide web?	Tim Berners Lee	Sir Thomas	Charles Babbage	None of these
What does the internet is sometimes known as?	NIT	NAT	NET	NFT

The internet is	an internal communication system	a large network of networks	a communication system for the Indian Government	all the above
